

TOUCHIT LED INSTALLATION SERVICES

LED INSTALLATION

Scope of Work

TouchIT Technologies to provide installation services for TouchIT LED's in Continental USA & Canada

TouchIT Technologies will be responsible for unboxing hardware, mounting bracket to wall, installing display on hanging bracket, power on unit, and test.

Assumptions

- Work hours based on business hours Monday-Friday 8am-5pm local time.
- Pricing is applicable for all locations in the Continental United States. Any locations outside of the area can be accommodated at an additional cost.
- Price includes travel and labor for 1 technician.
- For units over 46 inches, End-customer is responsible for providing a "helper" for de-installation and re-installation of LED when needed. (lifting)
- Customer will be responsible for the power and give access to an installation area for the TouchIT technician to work.
- Customer will provide instruction for installation height and placement.
- Materials may be an additional cost if technicians do not carry in normal trunk stock. These materials will be charged based on a 22% mark-up. (i.e. tools, screws, etc)
- TouchIT Technologies will require the following information from get a service call started
 - Site contact name, company name, address, and telephone number
 - Any specific times or requirements other than what is outlined in this agreement
 - Model/size/quantity of unit(s)
- TouchIT Technologies assumes walls are dry-wall. In the event that walls are not dry wall, TouchIT will need to be notified and scope of work may change, as well as cost.
- TouchIT assumes installation height is less than 8 feet.
- Price does not include onsite configuration, testing, or cabling. This is an additional fee that can be added to cost.
- Customer will be responsible to ensure the power outlet for the LED is in reach of the installation location. TouchIT will not re-route or extend electric outlets.
