

TOUCHIT LED FUSION

TOUCHIT FUSION™

THE 3-IN-1 PRODUCT

Incorporating an integrated PC, multi-touch LED and an electric mobile stand, the TouchIT Fusion is three products in one. An Interactive Easel, an Interactive Table and an Interactive LCD.

Transforming the TouchIT Fusion from one mode to another could not be any easier - everything is controlled at the touch of a button. The TouchIT Fusion is the ideal product for group collaboration or cluster group learning.

The TouchIT Fusion comes in two size options, 42" or 55". Choose between either the ground breaking 32 point or 10 point touch models.

42"

BUILT IN PC

Integrated PC for use with the TouchIT Fusion

The TouchIT Fusion comes with a powerful server grade integrated PC (GTIPC-A3) suitable for use 24/7 with your TouchIT LED Fusion. With an i5 processor, 8GB or RAM and a 500 GB hard disk, the TouchIT Fusion IPC is certainly not lacking power! There is nothing to install, we do it all for you. Simply register your software on first use and off you go!
